- Familiar with Agile methodology and software development life cycle (SDLC).
- Experience in designing and implementing web applications using HTML, CSS, and Bootstrap.
- Experience in designing and developing a dynamic website using front-end technologies and Frameworks.

HOBBIES & INTERESTS

- **Creative thinking:** I enjoy writing short stories in my spare time. This hobby has helped me to develop my creative thinking skills, which I believe are essential for programming.
- **Programming projects:** In my free time, I like to work on personal programming projects, which have allowed me to build my skills and develop new coding techniques.
- **Website design:** I have a keen interest in website design and enjoy exploring new ways to create visually appealing and user-friendly websites.
- **Coding challenges:** I enjoy participating in coding challenges and competitions. These challenges help me to develop my programming skills and keep me up-to-date with the latest coding techniques and technologies.
- **Attending tech events:** I like to attend tech events and conferences where I can meet other programmers and learn about new technologies and approaches to programming.
